DETAILED ACTION

Acknowledgment

1. This Office Action is responsive to the Amendment filed by the applicant on 08/17/2005.

Allowable Subject Matter

2. Claims 2, 12, 21 and 23 allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

With reference to independent claims 2, 12, 21 and 23, the prior art made of record in combination with other claimed limitations, neither teaches or renders obvious, a pulse width modulating device comprising a counter which, after the pulse of the pulse width modulating signal is made to rise, counts a number of pulses of the remaining one of the first clock signal and the processing clock signal generated by said operation device, wherein after said counter has counted a predetermined number of pulses, said pulse width modulating signal output device makes the pulse fall synchronously with the remaining one of the first clock signal and the processing clock signal generated by said operation device, and a selector which selects and outputs to the pulse width modulating signal output device one of the first clock signal and the processing clock signal, based on a clock selection signal input to the selector.

Art Unit: 2637

Such limitations, as recited in claims 2, 12, 21 and 23, are neither anticipated nor rendered obvious by the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
